

## **Kyiv**

**March 29-30, 2018**

**Expert seminars**

### **Genetic vaccines, present and future. Can they help against cancer?**

Dear colleagues and friends!

You are welcome as lecturers and attendants of a series of seminars on tumor vaccines, their development and applications for immune therapy and immune prevention of cancer.

The proposed topics:

- 1: Mechanisms of Pathogenesis, Diagnosis and Therapy
- 2: Tumor Immunology
- 3: Immunotherapy
- 4: Tumor vaccines

Participation in the seminars is free. To attend, please, register by e-mailing to ([lenakash@yahoo.com](mailto:lenakash@yahoo.com), [laboncogen@yandex.ua](mailto:laboncogen@yandex.ua)) and/or Larysa Kovalevska ([kreyl@yahoo.com](mailto:kreyl@yahoo.com)).

Looking forward to your attendance and interesting discussions.

Kind regards,  
on behalf of organizing committee,

Vasyl Checkun, Academician of NANU  
Elena Kashuba, PhD, Dr Hab.

Full program of the seminars will be available soon on IEPOR and VACTRAIN websites after the completion of the seminar program.
